## EXPERIENCE

---

### The Wonderful Company

August 2020 – Present

Front End Software Engineer

Remote

- Led front-end development for consumer-facing websites using Next.js, React, and TypeScript supporting high-traffic brand platforms.
- Architected headless commerce solutions using Shopify, Commerce7, and Builder.io, enabling faster marketing launches and decoupled content updates.
- Collaborated cross-functionally with design and backend teams to deliver pixel-perfect, performant UIs from Figma designs.
- Implemented end-to-end test coverage with Cypress.io and used Sentry.io for real-time error monitoring and debugging to ensure application stability and reliability.
- Improved development velocity through reusable custom component libraries and AI-assisted workflows; GitHub Copilot, ChatGPT.

### Centerfield Media

March 2019 – August 2020

Front End Developer

Playa Vista, CA

- Built and maintained internal and external web applications using WordPress, PHP, JavaScript, and SCSS.
- Modernized legacy sites into responsive, mobile-first experiences.

### Ready Artwork

October 2017 – March 2019

Web Developer

Monrovia, CA

- Developed responsive websites using WordPress and Magento.
- Implemented automated testing using Ruby, Selenium, and Cucumber.

## PROJECTS

---

### FIJI Water - [www.fijiwater.com](http://www.fijiwater.com)

Technologies: Next.js, React, TypeScript, Shopify GraphQL APIs, Builder.io, Cypress.io, Sentry.io
